PROFILE

Full Stack Developer specialising in Next.js, React, TypeScript, and modern SaaS architecture. Experienced in building and deploying production-ready applications featuring headless browser automation, async job queues, authentication, REST APIs, and responsive user interfaces. Passionate about creating scalable digital products and actively seeking internship and junior developer opportunities.

PROJECTS

SnapSaas

Next.js · TypeScript · Playwright · BullMQ · PostgreSQL · Better Auth · [snapsaas.vercel.app](#)

Full-stack SaaS that converts any live website URL into a production-ready marketing screenshot. Features a Playwright headless-browser capture pipeline, BullMQ + Redis worker queue for concurrent jobs, animated GIF export, 3D transforms with film-grain and vignette post-processing, and Better Auth with Google & GitHub OAuth.

Wholesale Pricing Engine

MERN Stack · [wholesale-pricing-engine.vercel.app](#)

Full-stack pricing management platform featuring secure JWT authentication, product management, real-time pricing calculations, snapshot tracking, and a RESTful API backend.

Daily Brew — Task Manager

MERN Stack · [task-manager-gabh.vercel.app](#)

Full-stack productivity platform with JWT authentication, Google OAuth integration, task management workflows with priority levels, MongoDB persistence, and a responsive React UI.
